

SPELLMAN INTERNATIONAL CLEAN TECH COMPETITION

A STEM Competition for 15 – 18 Year old Secondary Students

Australian students ranked 4th in the world - 2018

Where will your students be ranked in 2019?

Alastair J.M. Walton, Australia's Consul-General for New York, with James and Alec from Mt Maria College, Brisbane, placed 4th in the world at the Spellman Clean Tech Competition at Stony Brook University in New York, July 2018.

Australian Schools are invited to enrol for the 2019 Spellman Clean Tech Competition. Enrolments open November 2018 – additional information is available from STEM Australia or direct from the USA.

Schools contemplating participating are encouraged to visit the STEM Australia website before enrolling. Federal Government assistance in travel etc. can be applied for if short listed for the International STEM finals to be held in New York, USA.
